Mr. McTigue, Counsel to the Kersten Committee on Communist Aggression, called to state that in the Committee's final report they wished to include a statement of appreciation for the fine cooperation which the Committee has received from CIA. I told Mr. McTigue that, while we greatly appreciated his thoughtfulness in this connection, CIA, as usual, would prefer to remain anonymous, and, therefore, would have to request that the Committee delete its words of appreciation from the report.
